- *Fusion welded frame and sash*
- *Maintenance free uPVC frame is multi-chambered for maximum thermal efficiency*
- *Sash is pivot bar chambered to ensure proper pivot alignment*
- *Dual-walled integral pull rails for added strength during operation*
- *Dual walled glazing leg stand for improved strength*
- *Beveled exterior for pleasing aesthetics*

What is Swiggle Seal®?

Swiggle Seal® is a revolutionary patented system incorporating desiccant, a specially formulated sealant and corrugated metal spacer unit. The seal provides reduced heat transfer around the insulating glass units perimeter.

The Benefit...

Our windows in the home are less subject to the ill effects of condensation, which means a clearer view and less potential for mildew to form.
